NOTE BY THE TECHNICAL SECRETARIAT

**INVITATION TO APPLY FOR AN ANALYTICAL SKILLS DEVELOPMENT
COURSE AT THE INDIAN INSTITUTE OF CHEMICAL TECHNOLOGY
HYDERABAD, INDIA
4 – 15 SEPTEMBER 2023**

Purpose of the course

1. The OPCW Technical Secretariat (hereinafter “the Secretariat”) wishes to inform Member States that it will hold an analytical skills development course (ASDC) at the Indian Institute of Chemical Technology (IICT) in Hyderabad, India, from 4 to 15 September 2023. The course aims to help qualified analytical chemists from States Parties with economies that are developing or in transition gain further experience and practical knowledge, and facilitate the analysis of chemicals related to national implementation of the Chemical Weapons Convention (hereinafter “the Convention”).
2. More specifically, the course will enable participants to broaden their knowledge of the principles, procedures, and applications of gas chromatography (GC) and gas chromatography-mass spectrometry (GC-MS) for the analysis of chemicals related to the Convention. It will build awareness through applications of analytical chemistry and help strengthen the adoption of good laboratory practices in OPCW States Parties. The course primarily targets eligible personnel from industry, academia, and government laboratories, and aims to help broaden the pool of human resources for advancing national efforts in the implementation of the Convention.

Course content

3. The ASDC will have two parts:
 - (a) The first week will focus on basic training and gaining hands-on experience in GC and GC-MS. Participants will receive theoretical and practical training in GC and GC-MS, covering hardware, system validation and optimisation, and troubleshooting.
 - (b) The second week will focus on the preparation of environmental samples and GC and GC-MS analyses of such samples for chemicals related to the Convention. During this week, participants will be provided with intensive hands-on training in the preparation of different sample matrices for subsequent analysis by GC with element-selective detectors, and by GC-MS in electron-impact and chemical-ionisation modes. Participants will also be introduced to a range of extraction, clean-up, and derivatisation procedures.

4. The ASDC will accommodate a maximum of 20 participants from States Parties with economies that are developing or in transition. The Secretariat will select the participants based on their qualifications and experience. Only selected candidates will be notified by the Secretariat.

Sponsorship

5. The cost of the course and accommodation will be covered by the Secretariat for all sponsored participants. In addition, the Secretariat will pay for international travel, meals, and medical and travel insurance for all sponsored participants.
6. When making travel arrangements for sponsored participants, the Secretariat will seek the most economical options. It will purchase tickets and send them to participants. For the Secretariat to keep costs to a minimum, participants are expected to arrive no earlier than Sunday, 3 September 2023 and to depart no later than Saturday, 16 September 2023. The Secretariat will not cover expenses unrelated to the course or that result from changes to travel arrangements that it has not authorised. Sponsored participants must bear all costs resulting from changes they make, including cancellations, once the Secretariat has purchased tickets.
7. Participants should be fit to travel, and those taking prescribed medication should arrive with sufficient supplies for the duration of the event.
8. Participants are responsible for obtaining any necessary visas (including transit visas, if needed) before travelling to India. When applying for an entry visa, participants should present the Embassy or Consulate of the Republic of India with a copy of the OPCW acceptance letter. A visa support letter, if needed, may also be issued by the OPCW. The Secretariat will reimburse the costs of visa applications upon the production of original receipts.
9. The Secretariat will not pay for medical assistance. Therefore, participants should be fully fit to travel. All participants taking prescribed medication are recommended to travel with sufficient supplies for the duration of the event.

Admission requirements

10. The course is open to those who:
 - (a) have a minimum of a first degree (BSc or equivalent) in chemistry or analytical chemistry from a recognised university or institution, with relevant practical and theoretical experience in analytical chemistry, especially in GC and GC-MS;
 - (b) are citizens of States Parties with economies that are developing or in transition; and
 - (c) have been working in a chemical laboratory or research institution or similar in their home country, preferably for at least five years.
11. The course will be conducted in English. Candidates must therefore have a strong command of both written and spoken English. Any candidate who is found not to meet this requirement upon arrival may not be allowed to continue the course.
12. States Parties and National Authorities are particularly encouraged to support and endorse applications from suitable female candidates for the course.

Selection procedure

13. Applications will be carefully screened on the basis of the criteria specified in paragraphs 10 and 11 above. Applicants who have already participated in an ASDC or similar programmes will not be considered for selection.

Application procedure

14. Interested candidates are invited to submit their applications through Eventus—the OPCW event management system (<https://apps.opcw.org/eventus>)—by the stipulated deadline of Monday, 1 May 2023. Applicants may need to first create an account and then register for the event.
15. Only nominations endorsed by the National Authority or Permanent Representation of the applicant's country to the OPCW will be considered. Each application must be endorsed digitally on the Eventus platform by the nominee's respective National Authority or Permanent Mission and be accompanied by a curriculum vitae. A photocopy of the personal identification page of the applicant's passport is also requested. **Only selected candidates will be notified by the Secretariat.**
16. **The deadline for the receipt of endorsed applications in Eventus is Monday, 1 May 2023. Late applications will not be considered.** Additional information may be obtained from the International Cooperation Branch of the International Cooperation and Assistance Division.
