- 6) Endoscopic Skull Base Approaches – video Panel by Dr Emiro Ejwin, Dr Prathamesh Pai on 29-7-2014.

#### PARTICIPANTS CONTRIBUTION TO THE TRAINING/WORKSHOP

Participant's work was accepted for poster presentation titled as "Radial artery forearm flap in the reconstruction of bilateral oral Submucous fibrosis release". The poster was viewed & appreciated by many delegates & trainees all across the world. The poster conveyed the innovation of a single donor site for reconstruction of bilateral cheek defects instead of two donor site. This idea was highly accepted as a feasible option.
