

- ❖ **Name & Designation** : Dr. Sanjoy Kumar Sureka, Senior Resident
- ❖ **Address** : Dept. of Urology & Renal Transplant, SGPGIMS, Rai Bareilly Road, Lucknow-226014
- ❖ **Name of the International Conference/ Seminar/Symposium/ Workshop** : American Urological Society Annual Meeting-2014
- ❖ **Title of the abstract accepted** : Safe & Optimal pneumoperitoneal pressure for laparoscope renal surgery in infants less than 10 Kg
- ❖ **Venue & Date** : Orlando, Florida, USA, 16-21st May 2014.
- ❖ **Money sanctioned** : ₹ 1,00,000/-
- ❖ **Money reimbursed** : ₹ 1,00,000/-

**Participation Report**

AUA( American urological association) and SPU ( Society of paediatric urology) 2014 was truly a global event, participating more than 15,000 attendees from more than 100 countries around the world. There were over 2,500 speakers, many educational courses, forums and society programmes. There was many residents directed courses and events. Many new guidelines has been formulated and released during the events which will help in treatments of various urological diseases and also in future research. Main highlighting points were extended role of minimally invasive surgery like robotics, laparoscopy and endourological approaches in the management of urological diseases in both adults and paediatric populations. AUA releases new guidelines on diagnosis/treatment of cryptorchidism , renal stone diseases and urological trauma. As a whole the event was really educational and research oriented and helped me for improvement of my knowledge and approach towards patients care and research

I have presented my research work related to paediatric laparoscopy which was really appreciated and appraised. I have also presented two more posters at Indian American urological association meeting held at AUA which were also appreciated well.
