Participation Report

The number of delegates attending the congress, was 802, the highest number of delegates since the foundation of the society. The congress featured 11 symposia, four courses and nine free paper sessions.

As outgoing president of EuCornea, Dr Güell delivered the EuCornea Medal Lecture on the topic “Deep Anterior Lamellar: The Best keratoplasty Option in Keratoconic Eyes?”. His lecture was followed by the presentation of the EuCornea Medal to Dr Güell by past-president Harminder Dua, UK.

EUCORNEA, European Society of Ocular Surface Disease Specialists, is an all European Congress where esteemed doctors from all over the world come together on a global platform. Together they pool in their individually amassed knowledge in the various factions of Ophthalmology and it was a privilege to get to learn from their experiences. Corneal diseases being the main cause for blindness, this meet was a great opportunity to enhance our understanding of Ophthalmology in general and hone our skills, gain new knowledge, ensure that we stay at the forefront of the field and in touch with the latest research developments.
