Website: <http://pgimer.edu.in>

The Postgraduate Institute of Medical Education and Research (PGIMER) Chandigarh was conceived in 1960 as a center of excellence which would endeavour to develop patterns of teaching in postgraduate medical education in as many branches as possible and attempt to produce specialists in several disciplines of medicine. It was also envisaged that these specialists would spread out in the country in various medical colleges and medical institutions and impart medical education of highest standard to the students and set up nucleus of excellence in their own institutions. The PGIMER was also given the responsibility to broaden the horizons of medical knowledge by intensive research in the field of health.

All-India Institute of Medical Sciences

Ansari Nagar, New Delhi-110 029

Tel: 91-11-26588500, 91-11-26588700, 91-11-26589900

Fax: 91-11-26588663, 91-11-26588641

Website: <http://www.aiims.edu>

All-India Institute of Medical Sciences was established as an institution of national importance by an Act of Parliament with the objects to develop patterns of teaching in Undergraduate and Post-graduate Medical Education in all its branches so as to demonstrate a high standard of Medical Education in India; to bring together in one place educational facilities of the highest order for the training of personnel in all important branches of health activity; and to attain self-sufficiency in Post-graduate Medical Education.

The Institute has comprehensive facilities for teaching, research and patient-care. As provided in the Act, AIIMS conducts teaching programs in medical and para-medical courses both at undergraduate and postgraduate levels and awards its own degrees. Teaching and research are conducted in 42 disciplines. In the field of medical research AIIMS is the lead, having more than 600 research publications by its faculty and researchers in a year. AIIMS also runs a College of Nursing and trains students for B.Sc.(Hons.) Nursing post-certificate) degrees.

Twenty-five clinical departments including four super specialty centers manage practically all types of disease conditions with support from pre- and Para-clinical departments. However, burn cases, dog-bite cases and patients suffering from infectious diseases are not entertained in the AIIMS Hospital. AIIMS also manages a 60-bedded hospital in the Comprehensive Rural Health Centre at Ballabgarh in Haryana and provides health cover to about 2.5 lakh population through the Centre for Community Medicine.

Centre for Cellular & Molecular Biology

Habsiguda, Uppal Road, Hyderabad - 500 007

Andhra Pradesh, India

Telephone: +91 40 27160222-31, 27160232-41 Fax: +91 40 27160591, 27160311

Website: www.ccmb.res.in

The Centre for Cellular & Molecular Biology is one of the premier national institution of the Council of Scientific and Industrial Research. It was set up as a semi autonomous Centre in 1977 and became a full-fledged national laboratory during 1981-82. The Centre conducts research in multidisciplinary areas of modern biology. Main emphasis is on the research relevant to societal needs and application oriented research towards commercialization. The Centre conducts the short term training programmes in modern biology and provides centralized facilities in the country for new and modern techniques of biology.

Center for DNA Fingerprinting and Diagnostics [CDFD]

Bldg. 7, Gruhakalpa, 5-4-399 / B, Nampally
Hyderabad-500 001, India

Telephone: 0091 - 40 - 2474 9321/22/23
Fax : 91 - 040 - 2474 9448
Website: www.cdfd.org.in

The Centre for DNA Fingerprinting and Diagnostics (CDFD) is an autonomous organization funded by the Department of Biotechnology (DBT), Ministry of Science and Technology, Government of India. CDFD receives funding also from other agencies on specific collaborative projects. In addition, DNA Fingerprinting and Diagnostics services provided by the centre support some of the activities. The Centre is recognized by the University of Hyderabad for pursuing Ph.D. programme in Life Sciences. The centre is equipped with world class state-of-the-art instrumentation and computing infrastructure to facilitate working in frontier areas of research in Life Sciences. The centre is equipped with world class state-of-the-art instrumentation and computing infrastructure to facilitate working in frontier areas of research in Life Sciences. There are presently nineteen groups working on diverse research areas and the centre continues to attract leaders in related disciplines. CDFD is supported with a strong Bioinformatics facility.

Central Drug Research Institute,

Sector 10, Jankipuram Extension, Sitapur Road,
Lucknow 226031, Uttar Pradesh, India

Telephone: 091-(522)-2771940
Fax No. 091-(522)-27719401
Website: www.cdriindia.org

Central Drug Research Institute is one of the first and few laboratories that were established in India right after its independence. CDRI is among the thirty eight laboratories that are functioning under the aegis of the council of scientific and Industrial Research (CSIR) of India. CDRI is considered to be a pioneer research organization in the field of biomedical research where all the infrastructure and expertise are available to develop a drug right from its concept to market. The very latest techniques and methodologies are employed for developing drugs, diagnostics and vaccines to combat diseases prevalent among mankind in general and Indian population in particular.

CDRI is a multidisciplinary research laboratory consisting of scientific personnel of various areas of biomedical sciences. For administrative and scientific purposes the Institute's manpower has been grouped into 17 R & D divisions and few divisions providing technical and scientific support. In order to carry out work in cohesion and in a focused environment, the research works have been grouped into following six major research areas.
