

ENT

S. No.	Topic
Observational Descriptive	
1.	Study of circulatory levels of oxidative stress markers in patients of benign parotid gland tumours.
2.	Effect of endoscopic sinus surgery on eustachian tube function.
3.	Role of systemic antifungal in management of allergic fungal rhinosinusitis.
4.	Study of sternocleidomastoid muscle reconstruction in parotid surgery in terms of Frey's syndrome.
5.	Study of conventional Versus merocele nasal packing following endoscopic sinus surgery.
6.	Assessment of risk factors for hypocalcaemia after total thyroidectomy.
7.	Assessment of preoperative predictors for difficult laryngeal exposure in endolaryngeal surgery.
8.	Pre-operative predictors of ossicular status in chronic otitis media.
9.	Pattern of otorhinolaryngologic diseases in geriatric population.
10.	Evaluation of hearing in patients with Type-2 diabetes mellitus.
11.	Variability and determinants of hearing loss in chronic otitis media.
12.	Relationship between nasal septal profile and eustachian tube dysfunction.
13.	Epidemiology of swallowing disorders in otolaryngology.
14.	Epidemiology of oral precancerous lesions.
15.	Assessment of serum biomarkers for inner ear diseases.
16.	Clinical and laboratory predictors of disease activity in mucormycosis.
17.	Study of the demographics of hearing loss in terms of prevalence, possible causative, factors in delay of diagnosis and intervention.
18.	Study of deep neural networks in relation to deafness with the help of data collection using artificial intelligence.
19.	A study Branching patterns of facial nerve after surgery of parotid gland tumor.

20.	Usefulness of investigations used to diagnose tuberculosis in India: An audit.
21.	Clinical profile, evaluation and outcome of patients presenting with acute episodic vertigo.
22.	Evaluation of the levels of serum zinc, iron, vitamin D levels and their correlation with recurrent adenotonsillitis.
23.	Assessment of hearing status in patients with rheumatoid arthritis.
24.	Screening of neonates for hearing loss using distortion product otoacoustic emissions.
Observational Analytical	
25.	Distortion product otoacoustic emissions and high frequency audiometry for early detection of cisplatin induced ototoxicity.
26.	Evaluation of association of allergic rhinitis with bronchial asthma.
27.	Effect of type of invasion on oncological outcomes in oral cavity cancer patients.
28.	Efficacy of graft material in repair of large dural defects in skull base surgeries.
29.	Comparative studies on conventional Versus total annulus excision tympanotomy.
30.	A comparative study of different techniques of cochlear implantation.
31.	Comparison of postoperative pain and complications rates in tonsillectomy patients among various modalities for e.g. conventional Versus coblator assisted or conventional Versus harmonic scalpel tonsillectomy.
32.	Comparative study of acetic acid-based ear drops with standard steroid/antibiotic eardrops for the management of pseudomonas infection.
33.	Clinical audit of time taken from presentation to diagnosis to definitive treatment of oral squamous carcinoma.
34.	A prospective study of the accuracy of clinical/radiological staging of laryngeal carcinoma compared with final histopathological staging.
35.	Clinical audit/ study of the complications following paediatric cochlear implant surgery.

36.	Endoscopic surgery vs microscopic surgery outcome in otologic procedures.
37.	Role of meditation in post-operative healing in major head neck surgeries.
38.	Role of breathing exercises in post-operative hearing in ear surgeries.
39.	Fibre-optic laryngoscope guided biopsy Versus direct laryngoscopy biopsy for laryngeal growths.
40.	Effect of socio-economic status on treatment compliance in major head neck patients.
41.	Comparison of different medicated irrigations in nasal polyposis after Functional Endoscopic Sinus Surgery (FESS) .
42.	The effect of septoplasty in Tympanoplasty in gross deviated nasal septum.
43.	Effect of posterior tympanoplasty in combine approach tympanoplasty.
44.	Effect of dilatation in protympanum on graft uptake in tympanoplasty.
45.	To compare the efficacy of addiction of mometasone nasal spray to the standard medical treatment in reduction of adenoid hypertrophy in chronic adenoniditis.
46.	Comparative study of Radiological and Endoscopic findings in maxillary sinus diseases.
47.	Association of iron deficiency and chronic suppurative otitis media in children.
Experimental	
48.	Effect of cumin lozenges on oral sub mucous fibrosis.
49.	Assessment of impact of telemedicine based follow-up for head & neck cancer patients.
50.	An open label trial of vitamin D therapy in allergic rhinitis.
Qualitative Research	
51.	Does tumour board referral improve the outcome of head & neck cancer patients?
52.	Role of diet (vegan/omnivore) on post-operative healing in head & neck cancer patients.
